

# NARROW-TIER BLOOD BOWL 2018

Variety is the spice of life!

These house rules are intended for coaches and leagues that - like myself - would like to slightly narrow the gap between the best BB teams and the worst. The ambition is *not* to make all teams equal, but to make all teams viable, hopefully diversifying your and your opponent's team choices.

With the 2017 edition, the NTBB rules are no longer intended to go with the CRP+ rules – because the latest edition of Blood Bowl (BB2016) supersedes the CRP+ and deal with most of the issues that CRP+ did. The release of a new edition of BB also means, that the data that NTBB is based on – and the resulting roster changes – no longer accurately reflects the current rules.

Either way, NTBB2017 contains my own nerfs and buffs for 10 of the 24 existing teams - intended to rein in the teams at the very top of tier 1, promoting tier 1.5 to tier 1 proper, and making the challenge offered by tier 2 and 3 a touch more manageable. These roster tweaks were based on data derived from FUMBBLs Black Box, NAF tournaments and further shaped in discussion with coaches trying them out.

The 2 Cyanide teams (Khorne and Bretonnians) have also been included in this list, even though they are not an integral part of NTBB. If used, Khorne gets a price break, while both teams get an expanded list of stars, in order to get them to 6 just like all the other teams – as well as the services of an (in)famous staffer from DZ2.

<b>NERF: ABOVE TIER 1</b>	
<b>AMAZON</b>	Amazon start out very strong and finish pretty decent. +10K on the Linegirls to stymie the starting roster and make the positionals more appealing.
<b>UNDEAD</b>	The spectacular Mummies trade Mighty Blow for Grab.
<b>WOOD ELF</b>	Wardancers trade Block for Fend – making Strip Ball a less broken first choice. They also get a 10K price cut to reflect just how big that difference is.
<b>NO CHANGE</b>	
<b>BRETONNIAN, CHAOS DWARF, DARK ELF, DWARF, ELF, KHEMRI, HUMAN, LIZARDMEN, NECRO, NORSE, ORC, NURGLE, PACT, SKAVEN, UNDERWORLD</b>	
<b>SMALL BUFF: NARROWING TIER 1/IMPROVING TIER 1.5 AND 2</b>	
<b>CHAOS</b>	Weak starters (and, with CPOMB nerfed, not as strong finishers) Chaos have gained Leader on their Minotaur.
<b>DAEMONS OF KHORNE</b>	Bloodletters get a 10K price break.
<b>HIGH ELF</b>	The signature Thrower gains Accurate for free in order to make the High Elf team a slightly better starter.
<b>SLANN</b>	10K off the Blitzers to make them a tad more viable.
<b>VAMPIRE</b>	Thick Skull on the thralls for free.
<b>BIGGER BUFF: IMPROVING TIER 3</b>	
<b>GOBLIN</b>	The Trolls become River Trolls losing Loner and gaining Thick Skull and Foul Appearance for free.
<b>HALFLING</b>	Halflings Heroes added (Pro, G-access, 50K).
<b>OGRE</b>	A 10K discount on both ogres and rerolls, along with +1MA and +1AV on snotlings for free.

## AMAZON TEAMS

The amazon lend a certain femininity to Blood Bowl. As graceful as they are dangerous, they do not shun the brutality that is otherwise associated with the men-folk.

In the frozen land of Norsca, it's not just the crowd that goes berserk! The crazed norsemen work themselves into a frenzy and tackle polar bears for the sheer heck of it.
